**RE:** Letter of Intent regarding the collaboration in Elderly Care in Sweden

**Sirs,**

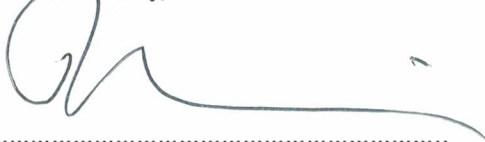

Ragunda Kommun together with Swedish Thai Chamber of Commerce (STCC) with its Head Quarter in Ostersund, Sweden as RUTH AB is aware of the growing numbers of elderly people mainly in Sweden and also in Scandinavian countries who would certainly need more care in the future. Meanwhile, the capacity of care givers tends to be far less than the future needs.

Thai hospitality and care is well known among Scandinavian people and due to the close relationship between the two countries including the Sister Cities Agreement between Bangkok Metropolitan and Ragunda Kommun, we see great possibility that Thailand could be the provider of qualified care givers for Sweden.

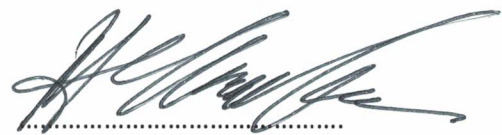

Therefore by the collaboration between Bangkok Metropolitan Council and RUTH AB, we could be the channel to give the assistance in connection with Elderly Care need in the future. The other details regarding the future cooperation would be discussed in due course as per the suggestions from both parties.

Henceforth we are looking forward to the further meetings and discussions to find the best way for this intention.

**Yours faithfully,**

.....
